Jakhongir Ganiev

Python Developer

📞 +998-(94)-302-4672   @ ganiyevuzb@gmail.com   📍 Tashkent, Uzbekistan

SUMMARY

I'm an energetic backend developer with a year of experience in web development and a freelancer, and completed various projects.
In the past few years I have learned PHP programming language for creating Telegram Bots, MySQL for Database, then I have learned Python and PostgreSQL and Algorithms & Data Structure. Now I am working on improving my skills and learning new ones.

EXPERIENCE

Backend Developer

Compass Teaching Centre

📅 02/2021 - 03/2022   📍 Namangan Region

- Improved their services by adding Celery & Redis to reduce registration time, expanding reach by 500 students
- I created a Telegram bot where students can get answers to their assignments and books
- Worked as a Backend developer to provide their online services

EDUCATION

Self-study

Home

📅 2019 - 2021

- During this time I learned PHP, MySQL and telegram bots as well as the HTML and CSS. Most of the time I have created Telegram bots using PHP
- I have created several web admin pages integration with telegram bots

Economy

Namangan State University

📅 2022 - Ongoing   📍 Namangan, Uzbekistan

LANGUAGES

Uzbek   Native   **English**   Upper-Intermediate

STRENGTHS

🎓 Quick Learner
Learning new skills, technologies, and roles comes naturally to me.

💡 Accountability
I take ownership of my mistakes so that I learn what I did wrong.

SKILLS

Programming

Python   PHP   SQL

Hard Skills

Docker   Telegram Bot   OOP

Celery   Linux (Ubuntu)   Bash

Redis   Django   DRF   FastApi

Nginx   Postman   Twilio   Linode

Git (GitHub)   Gitlab CI/CD   Gunicorn

Web Scrapping   HTML5   CSS3

JavaScript   Bootstrap   Swagger

MySQL   PostgreSQL   SQLite

Cronjob   Sentry   REST API

Aiogram   WebSocket   Ajax/JQuery

Testing (Pytest/Unittest)   Sentry

Soft Skills

Problem Solving   Comminication

Negotiation   Collaboration

Adaptability   Creativity

PROJECTS

GitHub profile

🔗 https://github.com/GaniyevUz/
You may see GitHub repositories and actions for better knowing about my other projects

Fuse Blog

🔗 https://github.com/GaniyevUz/django-blog
Fuse - Minimalistic Blog Site built in Django framework. I have used advanced technologies like Celery, Redis, SMS Verification, Cron and more...

BotCommerce

🔗 https://github.com/GaniyevUz/BotCommerce
A complete shop, with Telegram Bot, delivery services and convenient control panel with built-in CRM.
