Jakhongir Ganiev

Python Developer

📞 +998-(94)-302-4672 　　@ ganiyevuzb@gmail.com 　　📍 Tashkent, Uzbekistan

SUMMARY

I'm an energetic backend developer with a year of experience in web development and a freelancer, and completed various projects.
In the past few years I have learned PHP programming language for creating Telegram Bots, MySQL for Database, then i have learned Python and PostgreSQL and Algorithms & Data Structure. Now I am working on improving my skills and learning new ones.

EXPERIENCE

Backend Developer

Compass Teaching Centre

📅 02/2021 - 03/2022 　📍 Namangan Region

- Improved their services by adding Celery & Redis to reduce registration time, expanding reach by 500 students
- I created a Telegram bot where students can get answers to their assignments and books
- Worked as a Backend developer to provide their online services

EDUCATION

Self-study

Home

📅 2019 - 2021

- During this time I learned PHP, MySQL and telegram bots as well as the HTML and CSS. Most of the time I have created Telegram bots using PHP
- I have created several web admin pages integration with telegram bots

Economy

Namangan State University

📅 2022 - Ongoing 　📍 Namangan, Uzbekistan

LANGUAGES

Uzbek 　　　　Native 　　　　**English** 　　Upper-Intermediate

STRENGTHS

🎓 **Quick Learner**
Learning new skills, technologies, and roles comes naturally to me.

👤 **Accountability**
I take ownership of my mistakes so that I learn what I did wrong.

SKILLS

Programming

`Python` `PHP` `SQL`

Additional

`Docker` `Telegram Bot` `OOP`
`Celery` `Linux (Ubuntu)` `Bash`
`Redis` `Django` `DRF` `FastApi`
`Nginx` `Postman` `Twilio` `Linode`
`Git (GitHub)` `Gitlab CI/CD` `Gunicorn`
`Web Scrapping` `HTML5` `CSS3`
`JavaScript` `Bootstrap` `Swagger`
`MySQL` `PostgreSQL` `SQLite`
`Cronjob` `Sentry` `REST API`
`Aiogram` `WebSocket` `Ajax/JQuery`
`Testing (Pytest/Unittest)`

PROJECTS

GitHub profile

🔗 https://github.com/GaniyevUz/
You may see GitHub repositories and actions for better knowing about my other projects

Fuse Blog

🔗 https://github.com/GaniyevUz/django-blog
Fuse - Minimalistic Blog Site built in Django framework. I use technologies like Celery, Redis, SMS Verification and more...

YouTube-API

🔗 https://github.com/GaniyevUz/YouTube-API
YouTube API written in FastApi framework, and it can extract full information and download links from both channel & video

Google Translate Telegram Bot

🔗 https://t.me/Google_Tarjimonbot
This is one of my first oldest projects for Telegram Bots, and It was created about 1.5 years ago

Starry Face like mine

🔗 https://t.me/StarByFaceBot
The bot compares a person with celebrity faces and suggests the most similar ones.
